

# RETROSPECTIVE OF THE AMMOI :

Assalamoualaikoum, Dear Brothers and Sisters,  
Here is a retrospective of our Association A.M.M.O.I, Association Musulmane Mauricienne de L'Ocean Indien (Mauritian Muslim Association of the Indian Ocean).  
106-110 Rue Rateau - 93120 LA COURNEUVE - FRANCE  
Mosquée Anwaar-E-Tayyeba :

The Association was created on 10th February 1995 by some members, in the spirit to gather the Mauritian Muslims of the île de France. During 3 years, they fought to preserve this place and finally in 1998, the executive office decided to organize the Salaat Ul Tarawi for the first time.

The first Tarawi of the holy month was completed by 7 loyal worshipers, and by word of mouth, loyal worshipers began to increase in numbers, day after day. After the holy month of Ramadan, and thanks to a very strong mobilization of the loyal worshipers, the executive members decided to acquire the place, now known as A.M.M.O.I. At the time, the price of the property was 1.3 million Francs.

By the willingness of Allah (SWT) and the blessing of the month of Ramadan, a great pledge of solidarity had started. However the purchase price of the building required large funds during that period, with the necessity to get a loan in order to finalize the project.

And after 3 years by Allah's (SWT) wish as well as the mobilization, determination and generosity of the loyal worshipers, the loan was repaid early.

In 1999, the mosque was visited and controlled by the council who ordered us to close the establishment for security purposes. A permit for renovation was filed immediately after the visit from the council, and a few months later, on 28th October 1999 we were

granted the building permit, and within a few months the work was completed.

Since that date, the building was in compliance to accommodate 120 people. From 1998 until today the members have increased subsequently, so the mosque no longer meets the security standards required by the Council.

In 2012, the Executive Board with the approval of the General Assembly decided to file a building permit, and after encountering many difficulties, the building permit has finally been granted on 20th June 2017.

Today we have 870.000 € in cash, we need a further 400.000 € to start the first phase of the construction, that is to say the demolition and the foundation of the construction. Inch'Allah with the help of our Creator and your contributions, we will be able to place the first brick of this religious building.

The second phase of the work will require collecting the sum of approximately 2 000 000 euros, and this will be acquired by your support and your future generosity.

Help us to build the house of Allah, so you participate in a Saddaka E Dyariyah, a double reward because this is a Mosque and a Madrassa for Islamic Education.

PLEASE SUPPORT US, BROTHERS AND SISTERS FOR THIS GOOD CAUSE.

JAZAKALLAH.
